IVECO Total Loss Avoidance Programme

IVECO Total Loss Avoidance (TLA) Programme is designed to increase the opportunity for bodyshops, repairing vehicles when they are potentially a Total Loss.

When the cost of repair will result in a vehicle being written off, IVECO Parts offers an alternative solution, **IVECO Total Loss Avoidance (TLA) Programme**.

Vehicles that are planned to be written off, can be repaired instead through IVECO's TLA programme. IVECO Parts team can support with additional discounts on parts, with the aim of reducing the repair costs below the write-off threshold.

This enables bodyshops to keep repairs in their workshops using IVECO Parts. As a result, the customer will benefit from extending the life of their vehicle, whilst using the highest quality parts, with the peace of mind of IVECO's best-in-class parts warranty.

A step-by-step guide on how to make a claim

Follow five simple steps:

- 1** Once you have identified that a vehicle is potentially a Total Loss, contact your dealer to request the parts you require at a lower price, to reduce the repair cost below the write-off threshold
- 2** Your dealer will assess the additional discounts that can be offered to get the vehicle below the write-off threshold
- 3** For qualifying estimates, your dealer will be in touch with the new lower quotation
- 4** Customers will be invoiced including all discounts, meaning no extra time is spent claiming back discount or a rebate.
